### VILLAGE OF DEXTER RESOLUTION NO. -2007

### RESOLUTION OF ADOPTION FISCAL YEAR 2007-2008 BUDGET

**WHEREAS**, a detailed revenue and expenditure plan has been presented in accordance with all applicable Village, State and Federal statutes; and

**WHEREAS**, a public hearing was held on June 25, 2007 on the proposed budget;

**Now, Therefore Be It Resolved**, that the attached budget for July 1, 2007 through June 30, 2008 is hereby adopted and made a part of this resolution; and

I certify that a motion by the Village Council to approve the foregoing resolution was made by and supported by
Roll Call Vote:
Ayes: Nays: Absent:
The Village President declared this resolution adopted this 25th day of June 2007.
David F. Boyle Village Clerk

### Village of Dexter Fiscal Year 2007/2008 Budget

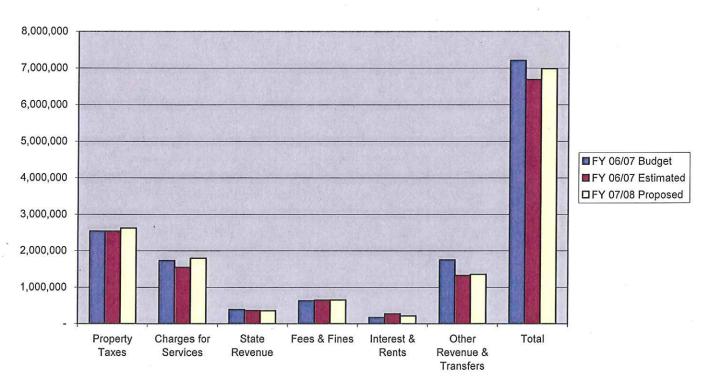

Attached is the proposed Fiscal Year 2007/2008 budget for the Village of Dexter, which is the result of much hard work by staff and Council. The budget covers all aspects of municipal government, including personnel costs, public safety, capital expenditures, and other operating costs. Highlights of this budget include the following:

- \$50,000 for the Village Tree Program, which is the same funding level as Fiscal Year 2006/2007.
- \$80,000 for sidewalk repair and replacement, a 63% increase over Fiscal Year 2006/2007.
- \$55,000 for further improvements to Dexter Community Park.
- \$206,100 (adjusted to the balance General Fund) for the Mill Creek sedimentation management project, which will be performed in conjunction with the Main Street Bridge and dam removal project. This project will continue in Fiscal Year 2008/2009.
- \$150,000 for the Village's share of the Main Street Bridge project.
- \$300,000 for improvements to Third Street.
- \$550,000 for improvements to Dexter-Ann Arbor Road. A portion of this expenditure will be reimbursed in Fiscal Year 2008/2009 from federal and state funds. This project will not be commenced until the summer of 2008, and an additional \$300,000 will be required in Fiscal Year 2008/2009.
- \$250,000 for a fifth municipal well.
- A 3% increase in sewer rates, and a 5% increase in water rates as recommended in the 2006 Sewer Rate Study. There is no increase in residential solid waste rates, and the Village will continue to subsidize this activity.
- Creation of a stand alone Equipment Fund which will own all Village nonenterprise vehicles and associated equipment. The vehicle maintenance line that was formerly in the DPW department has been moved to this fund.

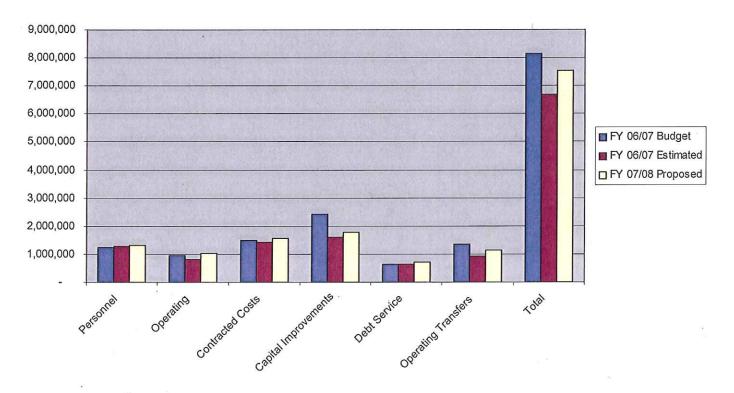

Major sources of revenue for these projects are property taxes, state shared revenue, and utility fees.

Prior to October 2008, the Village will need to commit the Facilities Bond proceeds remaining after completion of the DPW facility in June 2007. This discussion will need to be held during Fiscal Year 2007/2008, as well as deciding whether or not to fund the Mill Creek sedimentation management plan, which is required by the MDEQ, through funds on hand or through the second series of the facilities bond. Further consideration will also be given to phase two of the Main Street Bridge project, which is not located within the Village limits but which has an impact on Village residents and visitors.

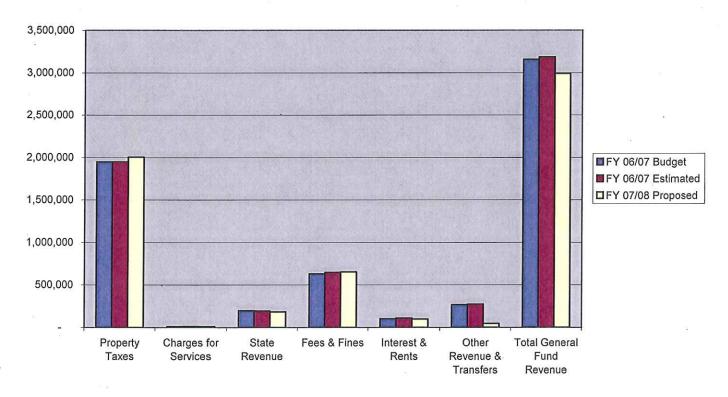

Total Expenditures

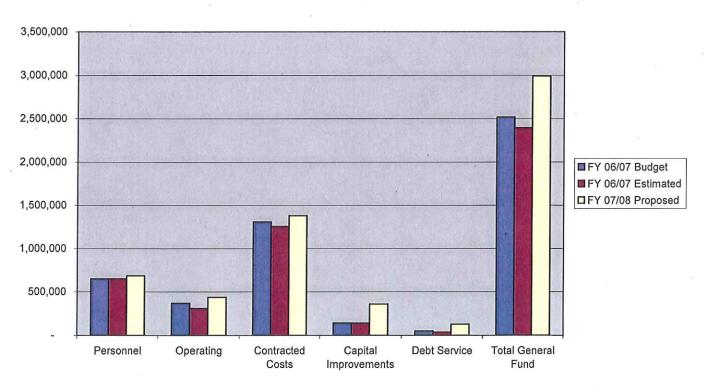

The General Fund holds the revenues and expenditures relating to the general operation of the Village. Overall operating and personnel increases have been held to a level lower than the current rate of inflation. The proposed millage rate (public hearing to be held June 11, 2007) is the same as the Fiscal Year 2006/2007 millage. Due to the current real estate and economic condition in the State of Michigan, many village residents will see a tax decrease as their real estate assessments and taxable values were lowered this year by the township assessors.

The following charts are a comparison of General Fund revenues and expenditures between Fiscal Year 2006/2007 and Fiscal Year 2007/2008.

### General Fund Revenue

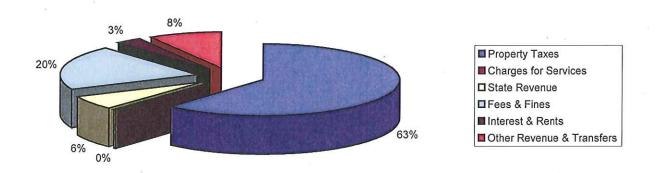

### General Fund Expenditures

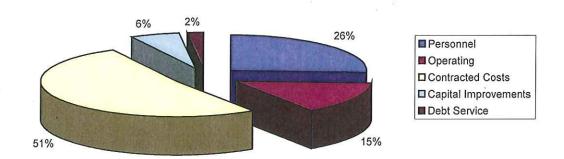

Within the general fund, revenue comes from a variety of sources. These have been grouped together in the next chart to show what percentages make up the total revenue stream.

General Fund Revenue FY 07/08

General Fund expenditures can also be grouped by type. This chart shows what the Village is spending its money on based on activity type.

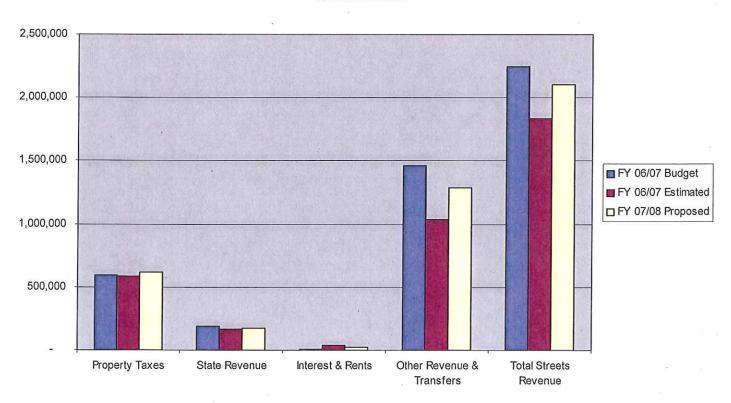

General Fund Expenditures FY 07/08

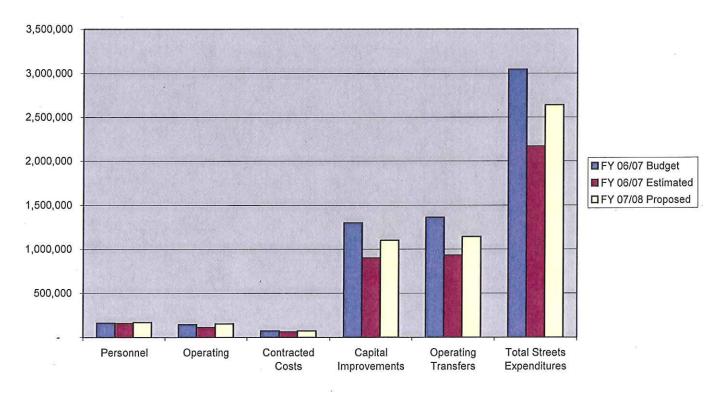

The street funds consist of the Major Streets Fund, the Local Streets Fund, and the Municipal Streets Fund. All street-related activities are budgeted for in these three funds. The State of Michigan's Act 51 dictates how state funds may be spent, and Village taxes can be used in either the Major or Local Streets funds, as needed.

The following charts are a comparison of Street Fund revenues and expenditures between Fiscal Year 2006/2007 and Fiscal Year 2007/2008.

### Streets Revenue

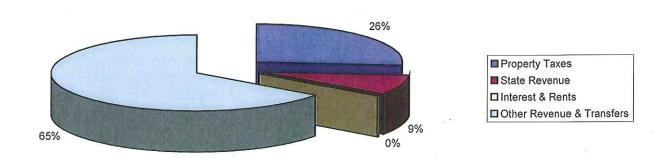

Streets Expenditures

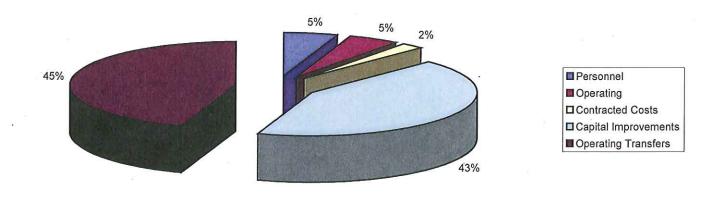

Within the streets fund, revenue comes from a variety of sources. These have been grouped together in the next chart to show what percentages make up the total revenue stream.

Streets Revenue FY 07/08

Street Fund expenditures can also be grouped by type. This chart shows what the Village is spending its money on based on activity type.

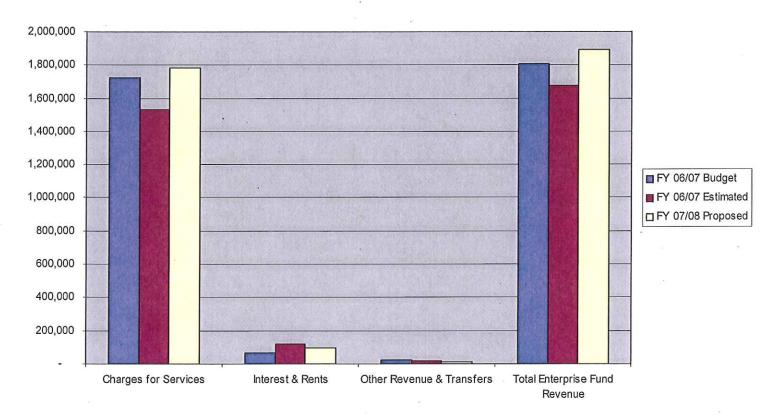

Streets Expenditures FY 07/08

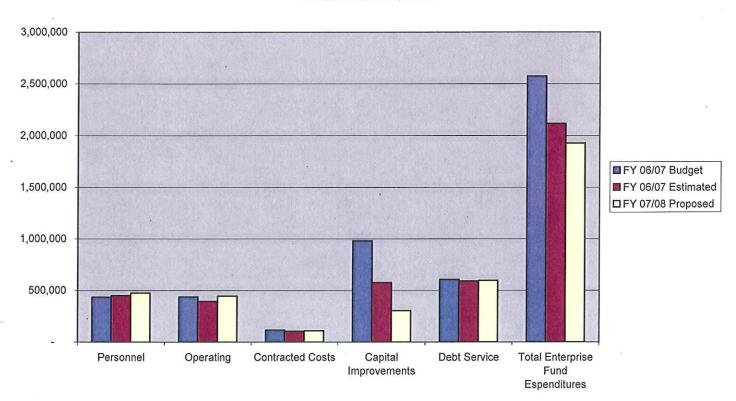

The Enterprise Funds make up the final major fund type for the Village. These are the Sewer Fund and the Water Fund, and both are supported primarily through user fees. All sewer and water related expenditures are contained within these two funds.

The following charts are a comparison of Enterprise Fund revenues and expenditures between Fiscal Year 2006/2007 and Fiscal Year 2007/2008.

### **Enterprise Fund Revenue**

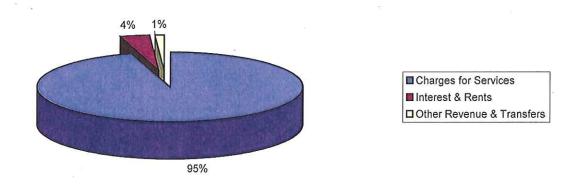

### **Enterprise Fund Expenses**

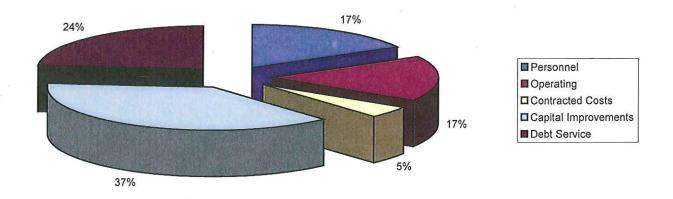

Within the enterprise funds, revenue comes from a variety of sources. These have been grouped together in the next chart to show what percentages make up the total revenue stream.

Enterprise Fund Revenue FY 07/08

Enterprise fund expenditures can also be grouped by type. The final chart shows what the Village is spending its money on based on activity type.

Finally, there are three small funds included in the budget. These are the Streetscape Debt Retirement Fund, which contains two revenue sources: special assessments, and the general obligation bond millage. The only expenditures in this fund are related to the debt payments for streetscape improvements made in the 1990's.

The second fund is the Special Projects Fund. This fund is only used when there is a large, bond-funded project that needs to be segregated out from the parent fund for. tracking purposes. The DPW construction, which was funded by the 2006 Facilities Bond, was tracked in this fund for Fiscal Year 2006/2007. Possible Fiscal Year 2007/2008 activity in this fund might include the expenditure of the remaining bond proceeds on an approved use such as a new village office.

The third fund is the Equipment Replacement Fund. Starting with Fiscal Year 2007/2008, all non-enterprise fund vehicle purchase, maintenance and depreciation will be contained in this fund. No vehicle purchases are scheduled for this Fiscal Year.

### Memorandum

To:

Village Council

Donna Dettling, Village Manager

From:

Allison Bishop

Re:

Report

Date:

June 25, 2007

### **Parks Commission**

Smith Woods Preserve — Washtenaw County Parks has started to complete the improvements to the parking lot at Smith Woods and has ordered the signage that will be placed at the property. The parking lot improvements should be completed by the end of this week and the signage will be installed within the next 8 weeks.

Woodchips - New woodchips have been installed in Warrior Creek Park and Community Park.

### **Projects**

Mill Creek Building – Representative from the Mill Creek Building presented the plan to the DDA on June 14, 2007. The DDA's comments were that the parking configuration needed further review and comparison to the proposed design in the DDA Development Plan. I am working with the developer and the DDA's consultant to overlay the site plan layouts to make sure that the maximum parking spaces are achieved and that the roadway layout for Jeffords aligns with the future Jeffords Street extension. We hope to have the parking and roadway issues worked out by July. Upon working out the issues the plan will be before the Village Council for approval, likely July 23th. The DDA and Planning Commission will review the plans again at the July 2 and July 12<sup>th</sup> meetings.

The Mill Creek subcommittee met to discuss the purchase agreement for parcel 006. The subcommittee also met with the developer and requested some additional information and had questions answered about the project and proposal. The subcommittee hopes to meet again within the next few weeks to finalize the details and provide a recommendation to Council.

Cedars of Dexter – At this time the applicant has decided to postpone coming before the Village Council until likely July 9<sup>th</sup>, maybe July 23<sup>rd</sup>. Outstanding items that still need to be addressed are Washtenaw County Road Commission and Drain Commission approval, the development agreement and a few other site plan issues. The development agreement subcommittee met and discussed the draft development agreement and will have a recommendation for Council when the developer is ready to proceed with the final site plan.

**Dexter Crossing Dedication** – A letter of credit was received from Blackhawk Developments bank, however there were a few items that needed to be addressed. Blackhawk is working to have the revised letter of credit and the M & G Bond to the Village for the July 9<sup>th</sup> meeting.

**SPR Committee meeting** – On June 25<sup>th</sup> the SPR Committee will meet to discuss the K-Space Combined Site Plan. K-Space manufactures diagnostic equipment for monitoring and is proposing an approximately 7000 square foot building in the Research and Development Park on a vacant piece of property.

**Dexter Wellness** – The Dexter Wellness Center applicant has requested postponement of action on the preliminary site plan based on the comments made at the last meeting and the follow-up meeting held on Friday, June 15<sup>th</sup>. Included in my report is a meeting summary that was emailed to Council and the revised plan provided by the applicant as a result of the June 15<sup>th</sup> meeting. The applicant plans to address the comments and resubmit to Council for the July 9<sup>th</sup> meeting. If there are any questions regarding the plan I can answer them at the meeting.

**ZBA** – Notice of Decision for the June meeting is included for your review.

Please feel free to contact me prior to the meeting with questions.

Thank you,

### **Allison Bishop**

Subject: FW: DW revised site plan

### Council.

As many of you know there was a work session on Friday, June 15th regarding the Dexter Wellness Center. The applicant, consultants, staff and Council persons, Carson, Keough, Fisher and Cousins were in attendance.

We reviewed the plan and the following is a summary of the comments:

- -Traffic Circulation around the building and DAFD access. DAFD informed that they need 50% building coverage only and are satisfied with hydrant and access as proposed.
- -Swapping the land banking parking from the front of the building to the side of the building
- -Grading at the rear and side of the proposed building, retaining walls
- -Moving the Wellness Center forward to accommodate a circulation drive behind the building
- -Hydrant coverage
- -Parking layout at the sides of the building
- -Landscaping and grade difference between proposal and school property
- -Detention ponds (location, size, aesthetics, need, etc) Applicant mentioned additional landscaping to camouflage basin.
- -Berms along the south of the building and landscaping to screen outdoor fitness area from school
- -PC recommendation
- -Cost of putting basin under the parking lot and why (approximately \$250,000 per applicant)
- -Funding from the DDA (\$150,000) and from SBT (\$600,000, as requested by applicant)
- -How DDA and SBT funds will be used for project. DDA funds will be used for the public improvements (water, sewer, storm, lights, sidewalks, etc.)
- -Project investment (\$9.5 million)
- -Open basin better for environment (per applicant's engineer)
- -OHM recommendation to reduce detention requirements based on project being a redevelopment and location adjacent to outlet
- -OHM recommendation to incorporate "Aqua Swirl" to put part of detention underground
- -Reduction in stormwater requirement results
- -Relocation of parking
- -Addition of a "Plaza" as entrance to Village
- -Relocation of outdoor fitness area. Location as proposed appeared to be better based on neighbors to the north.
- -Phase 2 building layouts
- -Relocation of the buildings. Big box at front of site does not meet Baker Road Corridor goals.

Based on the meeting the applicant has resubmitted the following plan as redesigned.

The applicant has requested that the site plan be postponed due to the need to re-engineer some items and to submit for Planning, Engineering and staff review.

Some of the changes made include, but are not limited to:

- -Reduction in the length of the parking lots on the north and south side of the building.
- -Reduction in the size of the detention basin with the addition of the "Aqua Swirl" underground system.
- -Slight repositioning of the detention basin.
- -The building layouts for Phase 2 have been hatched to represent a possible layout, not an actual or approved layout
- -Parking lot reconfiguration (land banked spaces removed, parking shown on plan proposed). The reduction in the side parking areas required additional parking spaces where parking was previously proposed to be land banked.
- -Addition of the landscaping plaza to the southwest corner of the property. This location may be relocated to be

within the ROW similar to the plaza at Dexter Plaza.

Please feel free to contact me if you have any questions.

Thank you,

**Subject:** DW revised site plan

Steve-

Attached is the updated overall site plan. Parking count matches original = 284 Total

Retaining Walls:

Basin = 300 If at 3' height& 200 If at 2' height

NE corner = 150 If at 4' height

South property line = 50 If at 3' height

FYI: We lose the "potential" loading zone in this site plan.

### VILLAGE OF DEXTER - ZONING BOARD OF APPEALS

8140 Main Street, Dexter, Michigan 48130-1092 Phone (734)426-8303 ext. 15 Fax (734)426-5614

### NOTICE OF DECISION

TO: Village Council

**Planning Commission** 

CC: Paul and Janie McKelvey, 3307 Central Street, Dexter, MI 48130

Donna Dettling, Village Manager

FROM: Allison Bishop, Community Development Manager

**DATE:** Wednesday, June 20, 2007

**RE:** ZBA Decision (Case #2007-03) Tax ID's HD-08-06-126-022

In compliance with the Zoning Board of Appeals Rules of Procedure and Policy, Article III, notice of the following ZBA decisions is given to Village Council and Planning Commission:

### Variance Request (ZBA Case #2007-03)

On June 18, 2007, the ZBA reviewed a variance request, submitted by Paul and Janie McKelvey for 3307 Central Street, to waive the following sections of the Village of Dexter Zoning Ordinance to permit the construction of a handicapped accessible ramp at the residence.

A. Section 20.01, Schedule of Regulations for Lot Coverage in the VR Village Residential District. Section 20.01 permits a maximum lot coverage in the VR District of 30%. The applicant proposed to construct a 32'x32' 2 car detached garage that resulted in a lot coverage that exceeded the maximum permitted.

The staff review was presented. The Board and the applicant discussed the details of the review and the request, including but not limited to the following: location of the proposed garage, the applicants smaller than standard lot size, size of the proposed garage, the proposed garages multiple uses, the applicant's basement and the possibility for a workshop use in the basement, moving the location of the proposed garage farther from the house, the applicant's 2 phase plan, the grade difference from the rear of the house to the proposed garage, and the proposed façade of the garage and the improvement to the neighborhood. The Board also requested that the applicant explain considerations given to a lesser variance. The applicant suggested that a 30' x 32' garage would be sufficient and therefore the ZBA considered granting a lesser variance than requested.

### **ZBA** Decision

On June 18, 2007, the Village of Dexter Board of Zoning Appeals moved the following:

Based on the information provided by the applicant at the June 18, 2007 Zoning Board of Appeals meeting the Board determines that the request to waive the requirements of Sections 20.01, Schedule of Regulations for Lot Coverage in the VR Village Residential District submitted by Paul McKelvey to permit the construction of a detached garage at 3307 Central Street, HD-08-06-126-022 that exceeds the maximum allowable lot coverage by 7.7% (30'x32' garage be **GRANTED** because the proposed request **MEETS** the conditions required for the granting of a variance.

The determination was made with consideration of following per Section 24.05 of the Village of Dexter Zoning Ordinance:

- 1. Practical Difficulties: Compliance with the strict letter of the restrictions governing area, setbacks, frontage, height, bulk, density, or other dimensional provisions would create practical difficulties, unreasonably prevent the use of the property for a permitted purpose, or render conformity with such restrictions unnecessarily burdensome. The showing of mere inconvenience is insufficient to justify a variance.
- 2. Public Safety and Welfare: The requested variance or appeal can be granted in such fashion that the spirit of these regulations will be observed and public safety and welfare secured.
- 3. Substantial Justice: Granting of a requested variance or appeal would do substantial justice to the applicant as well as to other property owners in the district; or, as an alternative, granting of lesser variance than requested would give substantial relief to the owner of the property involved and be more consistent with justice to other property owners.

Please feel free to contact me with any questions regarding the variance request or decision.

Thank you.

Respectfully submitted,

Allison Bishop, AICP

**President Seta and Council Members** From: Donna Dettling, Village Manager

Date: June 25, 2007 Re: VM Report

### 1. Meeting Review:

- June 12<sup>th</sup>- Miller Canfield re:UMRC Tax Incentive
- June 14th- Pre-DDA update with Dan & Gary
- June 14<sup>th</sup> DDA Meeting
- June 15<sup>th</sup> Village DDA Team Staff Meeting
- June 15<sup>th</sup> OHM Third Street re: Scope/Design
- June 15<sup>th</sup> –Dexter Wellness Center re: Site Plan Concerns
- June 18th Mike Hoelzer re:DQ easement and façade improvements
- June 18<sup>th</sup> Joint Meeting Scio Township & Village
- June 19th Deb Cooper of BRi re: DDA Development Plan
- June 19th Mill Creek Subcommittee
- June 20<sup>th</sup> Kent Kukuk of MEDC re:project incentives
- June 21st OHM Project Update & review Third Street, Dexter AA
- 2. Assistant Village Manager Search. The deadline was Friday, June 22 and I received over 70 resumes, a formal process for review and selection has begun. Jim Seta, a member of the DDA Board, Allison Bishop and Marie Sherry will be on the selection team.
- 3. Water Supply Update. The contractor "Raymer" will be on site Tuesday, June 26<sup>th</sup>. Our plan to meet with the School Board in July/August to share information and review the next steps in the process is still on target.
- 4. FOIA Request 1981 Promulgation Agreement. Attached to my report is the FOIA request received by the village and the action taken.
- 5. Farmer's Market Update. An update on the Farmer's Market from Brenda Tuscano is attached to my report. This information was requested by a Council member to be included in the next packet. Brenda worked closely with John Hanifan on the market, and she took over the majority of the responsibilities of the market in May.
- 6. WATS Technical Committee Representative. I plan to transition Rhett Gronevelt into the village representative for the WATS Technical committee for at least the next 6 months, possibly longer. OHM will invoice the Village one hour per month \$120 for this service. Rhett will protect the Village's financial interests on the AA Street Improvement project funding and assist in getting other village projects funded.

THE VILLAGE OF DEXTER IS AN EQUAL OPPORTUNITY PROVIDER AND EMPLOYER

www. villageofdexter.org June 20, 2007

Via fax First Class U.S. Mail

Mr. Mark Roberts 8415 Sandfield Court Dexter, MI 48130

Dear Mr. Roberts,

The Village of Dexter ("Village") received your Michigan Freedom of Information ("FOIA") request dated on June 15, 2007 regarding correspondence in 2007 pertaining to the 1981 Promulgation Agreement. This letter constitutes a response to your FOIA request in accordance with Section 5(2) of the Act.

Please be advised that the Village has extended the time period for a response to your FOIA request by ten (10) business days beyond the five (5) business days provided by the Act ("10-Day Extension"). The 10-Day Extension is permitted pursuant to Section 5, subsections (2) and (6) of the Act. The reason for the 10-Day Extension in this case is to allow for additional time to adequately research and obtain documents responsive to your FOIA request.

In accordance with Section 5(2) of the Act, the Village will calculate the original 5-day response period and the 10-Day Extension based upon a date of receipt of June 15, 2007. Please be advised that "business days" for the Village are Monday through Friday excluding weekends and holidays. Accordingly, the Village will take one of the following actions by Friday, July 6, 2007 (15 business days from the date of receipt of your FOIA request), as provided by Section 5(6) of the Act:

- (1) Grant your FOIA request;
- (2) Issue a written notice denying the request; or
- (3) Grant the request in part and issue a written notice denying the request in part.

Respectfully,

Donna Dettling, Village Manager

### Donna:

Currently the Farmer's Market has 14 Vendors that have submitted Applications for 2007. Most of them have shown up on Saturday's (when they are not at other Festivals and Fairs).

Mary Ann from Mary Ann's Country Store across the street from the Market has experience in soliciting vendors for the Farmer's Market and she is helping me with ideas to do this, in addition, she also has been very gracious in letting the vendors use her facilities in her store.

### We have:

Artwork (wall hangings and note cards) and Handmade crafts
Sterling silver jewelry, glass beads, fishing flies
Plants and shrubs
Vinyl window clings
Candles that are made out of Soy vegetable, simmer pots and body bars (soap)
Herbal teas and blends, Jams, Cross stitch cards, bird feeders
Fresh brown eggs
Strawberries

Fresh produce (we should have more vendors with produce in mid-July)

We have a billboard at Dexter-Ann Arbor Road going up on July 16, 2007, please see attached copy of billboard. In addition, we put an ad in the Dexter Leader for June 14, 28' July 12 and 26, 2007. We also are planning to advertise for new vendors in the Ann Arbor News or Observer. There is also a website on the Internet called "Craig's list" which is where vendors look for new Market's they can set up at.

Some other ideas are to have a musician come play music at the Market and also get someone to read a short story to children (maybe the Village President or another celebrity). We would also like a vendor to sell food to eat, however, that required a temporary food license which is \$125 per day.

There are many advertising ideas we can use to promote the Market but as you know everything costs money and I want to be very selective in spending the Market dollars where we know it will have a positive and direct impact to the Market.

Lastly, Mr. Seta informed me that there is a Market committee in place and that he would assist me in arranging a meeting, which I am hopeful that can happen in the near future.

Let me know if you need anything additional.

Brenda

### VILLAGE OF DEXTER

**MEMO** 

8140 Main Street Dexter, MI 48130-1092

To: **President Seta and Council** From: Donna Dettling, Village Manager

Date: June 25, 2007 Item K-1 Re:

ddettling@villageofdexter

### Follow-up Joint Session June 18, 2007 re: 425 Agreement with Scio Township

The result of the joint meeting held on June 18, 2007 with Scio Township determined that there is no reason to enter into a 425 Agreement for the 30 acres of the Gordon Hall property in Scio Township. The Conservation Easement provides the protection Scio Township desired.

### Follow-up Village Contribution to purchase Gordon Hall

Attached to this memo are two emails providing follow-up from the meeting held with Attorney's on June 12, 2007 to discuss tax exemption and incentives that UMRC may qualify for with their project at Gordon Hall. Although the meeting did not produce a proposal for Council to review, UMRC is continuing to work with their attorney and they plan to follow-up with the Village attorney with a recommendation.

Based on the meeting, it appears the feasibility of a tax exemption is unlikely, however UMRC's Attorney is still working on a proposal. The Village's attorney Miller Canfield will review the proposal and provide legal advice to the Village on its viability.

I am recommending that Council make a motion to release the \$20,000 payment at this time. I believe we can make arrangements that will not harm the Village's financial position with the DAHS&M in the future as issues regarding the Dexter-Pinckney Road easement and tax exemption and incentives are worked out.

I also recommend that the Village deduct the Attorney charges for drafting a 425 Agreement, which proved unnecessary from the \$20,000 payment to the Historical Society.

Miller Canfield invoices submitted to the Village for reviewing the tax exemption request will be turned over to UMRC for payment.

Please contact me if you have any questions.

**Subject:** Property Tax Exemption matter and Ct. of Claims use tax case

Joanne,

Thank you for the opportunity to meet with you and Tim and representatives of the Village of Dexter Tuesday regarding the tax exemption and incentives issues in connection with the proposed UMRC project. We need to have further discussions with UMRC before we get back to you to follow up regarding the matters discussed at the meeting. We understand you will ask Lynn Ghandi to look at any potential tax incentives that may apply.

Congratulations on your favorable Ct. of Claims use tax decision. I would appreciate it very much if you could email me a copy.

Regards SW

**To:** Faycurry, Joanne **Subject:** Village of Dexter

Joanne: To my knowledge, there is limited opportunity for the scenario you described. Historic would only apply to a qualified structure. However, an idea that did come to mind would be for a conservation easement. If the retirement community would have green space (l.e., a garden, park, or undeveloped buffer), they could donate this space to the City in a permanent easement to maintained as green space. They would receive a federal deduction for the allocated purchase price of the green space, and the land would not be subject to property tax post-contribution. In return, the City would get some green space. I know other communities that have done this.

ITEM K-3

To: **President Seta and Council** 

From: Donna Dettling, Village Manager

Date: June 25, 2007

Main St. Bridge Over Mill Creek Re:

> Phase 2 – Funding Update 3-Party Agreement Update

This memo and the attached emails were forwarded to Council on June 15, 2007. The first email is an update from Roy Townsend regarding Phase 2 Funding and a letter from MDOT providing a deadline for moving forward with Phase 2. The Road Commission is looking for a proposal from the Village and an agreement to be entered into between the Village and the Road Commission by the end of July. As indicated in the email, the Road Commission wants to know if the Village is going to submit a proposal to the Road Commissioners for phase 2 funding and what our timeframe is to submit this proposal.

I have also included the report Shawn Keough provided at the May 14, 2007 meeting, which outlined 3 scenarios. If, Council is prepared to submit a funding proposal for Phase 2 this document is a good place to start. Time is of the essence here, so I'm looking for direction to begin working on a draft proposal that could be used during a work session or during a public meeting to hammer out the details of a proposal that a majority of Council can support and forward to the WC Road Commissioner's.

The second email is an update regarding the 3-party hold harmless agreement between WCRC, Village and Ford Motor Company. Allen Philbrick feels this matter is in the Village's court as this is something the village wants, and the village should draft it in order to give the Road Commission something to respond to. The notes I made from the meetings clearly indicated that Steve Puuri would take the lead on this, contact Mr. Philbrick and draft an agreement.

I will make contact with Steve Puuri and discuss the selective memory of this matter, and report at the June 25<sup>th</sup> meeting what his response is. Is there a desire on Council's part to ask Dan Schairbaum, our Attorney at Dykema to draft the 3-party hold harmless agreement?

In discussing this matter on June 19, 2007 with Mr. Puuri, he said he is following his Attorney Alan Philbrick's advice that this is not a WCRC issue and if the Village wants a 3-party document completed the Village attorney will need to draft it.

To:

Donna Dettling

Cc: Subject: Hodges, Andy; Siddall, Sheryl; Puuri, Steve FW: Dexter Main Street Bridge, Phase II

Donna,

We received the attached letter from MDOT regarding the proposed phase II of the Dexter Main Street Bridge project. Per this letter MDOT has given us until September 2007 to determine if we going to move forward with this next phase. However, as we have discussed previously we feel would need to have a proposal and an agreement between the Village and the Road Commission in place by the end July O7 to insure the project could be funded in FY 09 and constructed in 2010. At the CAPT/DART meeting there seemed to be support for phase II, but no was willing to help fund this improvement. Please let us know if the Village is going to submit a proposal to our Board for phase II and your proposed timeframe.

Thanks, Roy

WASHTENAW COUNTY ROAD COMMARKONEUDLE

JENNIFER M. GRANHOLM GOVERNOR

June 7, 2007

Mr. Roy D. Townsend, P.E. Director of Engineering Washtenaw County Road Commission 555 N. Zeeb Road Ann Arbor, Michigan 48103

Dear Mr. Townsend:

### Dexter-Main Street Bridge Project, Phase II

As we are approaching the end of the 2007 fiscal year, projects remaining on the selected for funding lists are reviewed. The subject project is on the 2008 fiscal year selected for funding list with a total funding level of \$5.5 million.

Over the past year, there have been multiple meetings concerning phase two of this project which involves road and railroad bridge work northwest of the Mill Creek crossing. Based on these meetings, the Washtenaw County Road Commission determined the additional cost for engineering and right-of-way was more than they were able to spend and if this phase of the project is to be built, the Village of Dexter and the adjacent township would have to supply the needed engineering and right-of-way funding.

Based on the design information for phase one of the project, the estimated cost is approximately \$2.0 million which would leave approximately \$3.5 million to be applied toward phase two. As part of the review and selection process of projects submitted to the Local Bridge Program during the 2007 call, the anticipated available funding and the currently selected projects' estimates go into determining how many projects will be selected for the 2010 fiscal year. If funding cannot be secured by the Village of Dexter for phase two, the remaining funding beyond the cost of phase one will be applied to fiscal year 2010 bridge projects.

Therefore, it is important for the program to know whether the phase two portion will realistically be let to contract. Because the University Region Bridge Council will be meeting during the first part of October to review, rate, and select projects for fiscal year 2010, this office will need to know by September 28, 2007, whether funding will be secured for phase two. Please send correspondence to this office by the above date indicating whether or not funds have been secured.

Mr. Roy D. Townsend, P.E. Page 2 June 7, 2007

Thank you for working with the Local Bridge Program on this issue. If you have any questions or comments, please feel free to contact me at, (517) 373-2346 or via e-mail at <a href="mailto:harrisonm@michigan.gov">harrisonm@michigan.gov</a>.

Sincerely,

Mark C. Harrison, P.E. Bridge Program Manager

Hade C. Hanson

### Village of Dexter Phase Two Viaduct Scenarios For Discussion by Council on May 14, 2007

### **Background Information**

### What do we know?

- We know that MDOT will allow the critical bridge funds to be used to construct a new viaduct, as a Phase 2, as long as it is programmed as part of the Main Street Bridge (Phase 1) project.
- 2. Recent project estimates for the construction of the Main Street Bridge indicate that there will be approximately \$4,000,000 remaining of the \$5,500,000 originally approved from the critical bridge fund. This money can be used to cover 90 percent of any Phase 2 construction costs only. Design costs, construction engineering costs, the remaining 10% of the Construction cost and right-of-way costs must be covered by the local municipalities or agencies.
- 3. The most recent construction cost estimate for a four lane viaduct (railroad structure) and roundabout was approximately \$4,100,000 not including ROW or Engineering and was provided by URS on February 21, 2007.
- 4. WCRC estimates approximately \$1,820,000 in additional funding will be needed to complete Phase 2. A breakdown of this number includes \$600,000 for ROW acquisition, \$600,000 for construction engineering, \$220,000 in additional URS design fees and \$400,000 for the remaining construction costs not covered by the critical bridge money.
- 5. The County believes the estimate provided by URS is low, but has not indicated how low.

### What does the Village have invested already?

- The Village has committed \$400,000 for Phase 1 (Main Street Bridge). Based on the recent bridge cost estimates by URS, we will likely not spend the entire amount. Assuming we spend \$250,000 on Phase 1, the Village could elect to direct the remaining \$150,000 toward the additional funding required for Phase 2.
- 2. The Village has received a commitment from the DHS that the Village or the WCRC can purchase the ROW on the north side of the viaduct (Gordon Hall property) for \$100,000. The Village has already committed to pay certain contributions to DHS and can likely reach an agreement with DHS for the necessary ROW without increasing the Village's existing commitment.
- 3. While not yet officially committed, the Village Council has previously discussed a willingness to commit \$100,000 and possibly more for the construction of a pedestrian walkway to downtown from the west side of the Village.
- 4. While not yet officially committed, the Village Council has expressed an interest in allocating \$500,000 for sediment management once the dam is removed. Current estimates for this work are in the range of \$330,000, which means the remaining funds could be redirected toward a Phase 2 solution.

### How much additional money is needed?

- 1. Assuming the above information is reasonably accurate, approximately \$2,000,000 (\$1,820,000 + 10% contingency) is needed to complete Phase 2 over and above the \$4,000,000 from the critical bridge fund.
- The Village of Dexter has approximately \$250,000 already committed that could be applied toward Phase 2.(Note this does not include the \$100,000++ for a walkway, or over \$100,000 that could be available as a result of the possibility of reduced sediment management costs.)
- 3. Net result for discussion purposes assume \$1,750,000 in additional funding is required to complete Phase 2.

### Scenario 1 – Village of Dexter pays for all additional project costs

What would it cost the Village of Dexter to pay 100% of the additional costs (\$1,750,000) for Phase 2?

Option 1 – Pay for it all up front – an unlikely scenario given that we don't have that much in cash reserves.

Option 2 – Use either the WCRC bonding capability or the Villages' bonding capability to get the best interest rate and terms

If we bonded for \$1,750,000 - the following is an example of payback terms based on our recent facility bond:

20 years @ 4.25% would require approximately \$135,000 annual payback

25 years @ 4.5% would require approximately \$116,700 annual payback

10 years @ 4.00% would require approximately \$213,600 annual payback

Related question – is the County able to achieve better bonding terms (i.e reduced interest rates? Do they have a better rating?)

Option 3 – Use a portion of our discretionary funding to lower the bond term, rate and payment. (i.e – sidewalks, trees, decorative lighting vs. viaduct/pedestrian connector)

### Scenario 2 – WCRC and Village of Dexter agree to pay half of the additional project costs

What would it cost the Village of Dexter to pay 50% of the additional costs for Phase 2?

Option 1 – WCRC and Village agree to pay 50% each year for the entire term of the bond (use 20 year bond scenario)

Annual Cost to Village from (2009 through 2028) = \$135,000/2 = \$67,500

Option 2 – Village agrees to pay 100% for the 1<sup>st</sup> half of the bond length, and WCRC agrees to pay 100% of the 2<sup>nd</sup> half of the bond length (use 20 year bond scenario)

Annual Cost to Village from (2009 through 2018) = \$135,000 Annual Cost to WCRC from (2019 through 2029) = \$135,000

This would help the Road Commission because they already have funds committed to other projects over the next few years and plan for these future payments

### Scenario 3 - Do Nothing and Enjoy the Bridge

What if we don't take advantage of the \$4,000,000 available for Phase 2?

If we allow the money to be returned, future local costs to complete the project go way up and the project likely becomes very unfeasible.

We do get a new bridge, but we still have the pedestrian accessibility issue and the traffic congestion issue.

Do we need to act now, so that Phase 2 can be programmed with the WCRC and the State of Michigan?

### Other Related Questions/Scenarios for Discussion

Are the surrounding Twp's willing to contribute anything to complete Phase 2?

May need to approach them and open dialogue on this issue.

Will the property/project ever become part of the Village?

What shared liability will the WCRC have if there are project overruns? Can the Village somehow have more control to reduce this concern?

Is there a possibility that we can use other funds (Street Fund, DDA, etc) to reduce potential bond amount and annual debt service?

Are Village street funds allowable for this project? We do have approximately \$700,000 in the street funds.

RE: Emailing: 20070608083409374.pdf

My apologies.

I thought that at one of our meetings we had agreed to take the lead on the agreement. I searched the various minutes that I have and did not find that statement anywhere.

Thanks for the quick response.

As I have previously discussed with Steve, the ball is in the court of the

Village and/or their attorney. This is something they want, so they should

draft it up in order to give us something to respond to. We are generally in

agreement, in principle. I spoke with their attorney several weeks ago; they

haven't gotten back to me. This is their baby at the moment.

### Allen,

Pursuant to the attached minutes from the Village of Dexter, the Mill Creek

Dam will be removed as part of the Deuter Main Street builds and the Deuter Main Street builds.

Dam will be removed as part of the Dexter Main Street bridge project.

At past meetings with the Village, it was noted that a three party hold harmless agreement between WCRC, Village of Dexter, and Ford Motor Co. is desirable. Per Roy's direction, please draft this agreement at your earliest convenience.

Thank you for your attention to this matter. If you have any questions, please do not hesitate to contact me.

### Andy,

I have attached the minutes that reflect the approval of the URS proposal,

see page 4, item L-1. My plan is to do a more formal approval at the June  $\,$ 

25th meeting, to include the agreement for professional services the I received from Mike Donahue after I got the proposal. You should have a copy of the proposal.

At any rate once the formal approval is completed on June 25th, I will send  $\,$ 

you the entire packet which will include the proposal and the professional services agreement.

Re: Proposal for Dam Removal-Stream Restoration Work

Follow-up on Formal Approval-Professional Services Agreement

Attached is the Professional Services Agreement from URS for the Dam Removal & Stream Restoration Project. I am recommending Council enter into the Professional Services Agreement contingent upon satisfactory legal review. I have submitted the services agreement for review by Legal Council and will make changes as recommended before signing the agreement.

Also attached is the Proposal that Council accepted at the May 14, 2007 meeting for the scope of services needed to remove the dam, restore the stream and manage the sediment. As indicated in Mr. Donahue's email and in the proposal about \$40,000 of the total project cost of \$365,654 will be covered by the critical bridge funding. At the time Council accepted the proposal it was unclear if WCRC would sign the Professional Services Agreement and therefore accept this proposal as another pass through to the Village similar to the Bridge project.

The WCRC does not want to enter into this agreement as a pass through to the Village, but will accept the allowable pay items associated with the physical removal of the dam for reimbursement to the Village from the critical bridge funding.

Council has budgeted \$206,100 for this project in the proposed FY 2007/08 budget. It is likely the project will not be complete by June 30, 2008 and therefore the remainder of the project costs will be budgeted in FY 2008/09. If the project is completed in FY 2007/08 a budget amendment will be necessary, and funds from unrestricted general fund reserves will be used to cover the cost.

# AGREEMENT FOR PROFESSIONAL SERVICES ("Agreement")

This Agreement between <u>The Village of Dexter, 8140 Main Street, Dexter, MI 48130 (734) 426-8303</u>, ("Client") and <u>URS Corporation Great Lakes</u> ("URS"), a <u>Michigan</u> corporation; <u>34555 W. 12 Mile</u> Road MI 48331 (248) 553-9449 ("URS"), is effective as of May 21, 2007. The parties agree as follows:

It is the expressed intent of the parties that this Agreement shall be made available to the subsidiaries and affiliated companies of URS. For the purposes of this Agreement, as it applies to each Work Order, the term "URS" shall mean either, <a href="URS Corporation Great Lakes">URS Corporation Great Lakes</a>, or the affiliated company identified in the Work Order. The applicable Work Order shall clearly identify the legal name of the affiliate or subsidiary accepting the Work Order.

ARTICLE I - Work Orders. The Scope of Services ("Services"), the Time Schedule and the Charges are to be set forth in a written Work Order to this Agreement. The terms and conditions of this Agreement shall apply to each Work Order, except to the extent expressly modified by the Work Order. Where charges are "not to exceed" a specified sum, URS shall notify Client before such sum is exceeded and shall not continue to provide the Services beyond such sum unless Client authorizes an increase in the sum. If a "not to exceed" sum is broken down into budgets for specific tasks, the task budget may be exceeded without Client authorization as long as the total sum is not exceeded. Changes in conditions, including, without limitation, changes in laws or regulations occurring after the budget is established or other circumstances beyond URS control shall be a basis for equitable adjustments in the budget and schedule.

ARTICLE II - Payment. Unless otherwise stated in an Work Order, payment shall be on a time and materials basis under the Schedule of Fees and Charges in effect when the Services are performed. Client shall pay undisputed portions of each progress invoice within thirty (30) days of the date of the invoice. If payment is not maintained on a thirty (30) day current basis, URS may suspend further performance until payments are current. Client shall notify URS of any disputed amount within fifteen (15) days from date of the invoice, give reasons for the objection, and promptly pay the undisputed amount. Client shall pay an additional charge of one and one-half percent (1½%) per month or the maximum percentage allowed by law, whichever is the lesser, for any past due amount. In the event of a legal action for invoice amounts not paid, attorneys' fees, court costs, and other related expenses shall be paid to the prevailing party.

ARTICLE III - <u>Professional Responsibility</u>. URS is obligated to comply with applicable standards of professional care in the performance of the Services. Client recognizes that opinions relating to environmental, geologic, and geotechnical conditions are based on limited data and that actual conditions may vary from those encountered at the times and locations where the data are obtained, despite the use of due professional care. .URS is not responsible for designing or advising on or otherwise taking measures to prevent or mitigate the effect of any act of terrorism or any action that may be taken in controlling, preventing, suppressing or in any way relating to an act of terrorism.

ARTICLE IV - Responsibility for Others. URS shall be responsible to Client for URS Services and the services of URS subcontractors. URS shall not be responsible for the acts or omissions of other parties engaged by Client nor for their construction means, methods, techniques, sequences, or procedures, or their health and safety precautions and programs.

ARTICLE V - Risk Allocation. The liability of URS, its employees, agents and subcontractors (referred to collectively in this Article as "URS"), for Client's claims of loss, injury, death, damage, or expense, including, without limitation, Client's claims of contribution and indemnification, express or implied, with respect to third party claims relating to services rendered or obligations imposed under this Agreement, including all Work Orders, shall not exceed in the aggregate:

- (1) The total sum of \$250,000 for claims arising out of professional negligence, including errors, omissions, or other professional acts, and including unintentional breach of contract; and any actual or potential environmental pollution or contamination, including, without limitation, any actual or threatened release of toxic, irritant, pollutant, or waste gases, liquids, or solid materials, or failure to detect or properly evaluate the presence of such substances, except to the extent such release, threatened release, or failure to detect or evaluate is caused by the willful misconduct of URS; or
- (2) The total sum of \$1,000,000 for claims arising out of negligence, breach of contract, or other causes for which URS has any legal liability, other than as limited by (1) above.

ARTICLE VI - <u>Insurance</u>. URS agrees to maintain during the performance of the Services: (1) statutory Workers' Compensation coverage; (2) Employer's Liability; (3) General Liability; and (4) Automobile Liability insurance coverage each in the sum of \$1,000,000.

ARTICLE VII - <u>Consequential Damages</u>. Neither Party shall be liable to the other for consequential damages, including, without limitation, loss of use or loss of profits, incurred by one another or their subsidiaries or successors, regardless of whether such damages are caused by breach of contract, willful misconduct, negligent act or omission, or other wrongful act of either of them.

ARTICLE VIII - Client Responsibility. Client shall: (1) provide URS, in writing, all information relating to Client's requirements for the project; (2) correctly identify to URS, the location of subsurface structures, such as pipes, tanks, cables and utilities; (3) notify URS of any potential hazardous substances or other health and safety hazard or condition known to Client existing on or near the project site; (4) give URS prompt written notice of any suspected deficiency in the Services; and (5) with reasonable promptness, provide required approvals and decisions. In the event that URS is requested by Client or is required by subpoena to produce documents or give testimony in any action or proceeding to which Client is a party and URS is not a party, Client shall pay URS for any time and expenses required in connection therewith, including reasonable attorney's fees.

Client shall reimburse URS for all taxes, duties and levies such as Sales, Use, Value Added Taxes, Deemed Profits Taxes, and other similar taxes which are added to or deducted from the value of URS Services. For the purpose of this Article such taxes shall not include taxes imposed on URS net income, and employer or employee payroll taxes levied by any United States taxing authority, or the taxing authorities of the countries or any agency or subdivision thereof in which URS subsidiaries, affiliates, or divisions are permanently domiciled. It is agreed and understood that these net income, employer or employee payroll taxes are included in the unit prices or lump sum to be paid URS under the respective Work Order.

ARTICLE IX - Force Majeure. An event of "Force Majeure" occurs when an event beyond the control of the Party claiming Force Majeure prevents such Party from fulfilling its obligations. An event of Force Majeure includes, without limitation, acts of God (including floods, hurricanes and other adverse weather), war, riot, civil disorder, acts of terrorism, disease, epidemic, strikes and labor disputes, actions or inactions of government or other authorities, law enforcement actions, curfews, closure of transportation systems or other unusual travel difficulties, or inability to provide a safe working environment for employees.

In the event of Force Majeure, the obligations of URS to perform the Services shall be suspended for the duration of the event of Force Majeure. In such event, URS shall be equitably compensated for time expended and expenses incurred during the event of Force Majeure and the schedule shall be extended by a like number of days as the event of Force Majeure. If Services are suspended for thirty (30) days or more, URS may, in its sole discretion, upon 5 days prior written notice, terminate this Agreement or the affected Work Order, or both. In the case of such termination, in addition to the compensation and time extension set forth above, URS shall be compensated for all reasonable termination expenses.

ARTICLE X - Right of Entry. Client grants to URS, and, if the project site is not owned by Client, warrants that permission has been granted for, a right of entry from time to time by URS, its employees, agents and subcontractors, upon the project site for the purpose of providing the Services. Client recognizes that the use of investigative equipment and practices may unavoidably alter the existing site conditions and affect the environment in the area being studied, despite the use of reasonable care.

ARTICLE XI - <u>Documents</u>. Provided that URS has been paid for the Services, Client shall have the right to use the documents, maps, photographs, drawings and specifications resulting from URS efforts on the project. Reuse of any such materials by Client on any extension of this project or any other project without the written authorization of URS shall be at Client's sole risk. URS shall have the right to retain copies of all such materials. URS retains the right of ownership with respect to any patentable concepts or copyrightable materials arising from its Services.

ARTICLE XII - Termination. Client may terminate all or any portion of the Services for convenience, at its option, by sending a written Notice to URS. Either party can terminate this Agreement or a Work Order for cause if the other commits a material, uncured breach of this Agreement or becomes insolvent. Termination for cause shall be effective twenty (20) days after receipt of a Notice of Termination, unless a later date is specified in the Notice. The Notice of Termination for cause shall contain specific reasons for termination and both parties shall cooperate in good faith to cure the causes for termination stated in the Notice. Termination shall not be effective if reasonable action to cure the breach has been taken before the effective date of the termination. Client shall pay URS upon invoice for Services performed and charges incurred prior to termination, plus reasonable termination charges. In the event of termination for cause, the parties shall have their remedies at law as to any other rights and obligations between them, subject to the other terms and conditions of this Agreement.

ARTICLE XIII - No Third Party Rights. This Agreement shall not create any rights or benefits to parties other than Client and URS. No third party shall have the right to rely on URS opinions rendered in connection with the Services without the written consent of URS and the third party's agreement to be bound to the same conditions and limitations as Client.

ARTICLE XIV - <u>Assignments</u>. Neither party to this Agreement shall assign its duties and obligations hereunder without the prior written consent of the other party.

ARTICLE XV - Hazardous Substances. All nonhazardous samples and by-products from sampling processes in connection with the Services shall be disposed of by URS in accordance with applicable law; provided, however, that any and all such materials, including wastes, that cannot be introduced back into the environment under existing law without additional treatment, and all hazardous wastes, radioactive wastes, or hazardous substances ("Hazardous Substances") related to the Services, shall be packaged in accordance with the applicable law by URS and turned over to Client for appropriate disposal. URS shall not arrange or otherwise dispose of Hazardous Substances under this Agreement. URS, at Client's request, may assist Client in identifying appropriate alternatives for off-site treatment, storage or disposal of the Hazardous Substances, but URS shall not make any independent determination relating to the selection of a treatment, storage, or disposal facility nor subcontract such activities through transporters or others. Client shall sign all necessary manifests for the disposal of Hazardous Substances. If Client requires: (1) URS agents or employees to sign such manifests; or (2) URS to hire, for Client, the Hazardous Substances transportation, treatment, or disposal contractor, then for these two purposes. URS shall be considered to act as Client's agent so that URS will not be considered to be a generator, transporter, or disposer of such substances or considered to be the arranger for disposal of Hazardous Substances, and Client shall indemnify URS against any claim or loss resulting from such signing.

ARTICLE XVI - Venue. In the event of any dispute between the parties to this Agreement, the venue for the dispute resolution shall be any state or federal court in the United States having jurisdiction over the parties. The foregoing notwithstanding, if the project is located outside the United States, the laws of the State of California shall govern and in such event, any dispute under the Agreement not resolved amicably shall be resolved under the binding rules of the American Arbitration Association.

ARTICLE XVII - Integrated Writing and Enforceability. This Agreement constitutes the final and complete repository of the agreements between Client and URS relating to the Services and supersedes all prior or contemporaneous communications, representations, or agreements, whether oral or written. Modifications of this Agreement shall not be binding unless made in writing and signed by an Authorized Representative of each party. The provisions of this Agreement shall be enforced to the fullest extent permitted by law. If any provision of this Agreement is found to be invalid or unenforceable, the provision shall be construed and applied in a way that comes as close as possible to expressing the intention of the parties with regard to the provisions and that saves the validity and enforceability of the provision.

THE PARTIES ACKNOWLEDGE that there has been an opportunity to negotiate the terms and conditions of this Agreement and agree to be bound accordingly.

Subject: Proposal for Dam Removal, Stream Restoration Work

Donna- I am pleased to attach a proposal for the dam removal/ stream restoration work. It includes total estimated cost, which falls within the earlier estimate provided. (Please note that \$40,000 of the total identified within will be covered by the WCRC project for physical removal of the dam.)

I would be glad to discuss in advance of the Monday Council meeting.

Also- I heard from the U.S. Fish and Wildlife Service yesterday- there may be some interest in funding the 20K proposal we submitted. I should learn more today/ tomorrow.

Thank you,

Mike Donahue

Ms. Donna Dettling Village Manager 8140 Main Street Dexter, MI 48130

Subject:

**Proposal for Professional Services** 

Mill Creek Dam Removal and Stream Restoration

URS Proposal No. 1549-07-043

Dear Ms. Dettling:

URS Corporation (URS) is pleased to provide the Village of Dexter with a proposal for professional services associated with Mill Creek Dam removal and stream restoration. This proposal involves the collection of additional field data required to complete the design and permit application, and address comments provided by the Michigan Department of Environmental Quality (MDEQ) in a letter dated April 25, 2007. It also provides a comprehensive suite of services that includes final design and permitting of the dam removal and stream restoration, bidding assistance, construction oversight, project management, and assistance with intergovernmental coordination and stakeholder relations. Presented below is our understanding of the project, scope of services, estimated costs, schedule, and deliverables.

#### 1.0 PROJECT BACKGROUND AND UNDERSTANDING

URS understands that the project consists of the necessary investigation, design and permitting work to breach and remove the Mill Creek Dam with the goal of restoring the affected segments of Mill Creek to their natural, free flowing state.

The dam is located on Mill Creek in the Village of Dexter and immediately upstream of the Main Street Bridge. This bridge is planned to be replaced and, although separate projects, coordination of bridge replacement with dam removal/ stream restoration will be important.

URS has completed conceptual design plans that have been reviewed and commented upon by MDEQ. Additional design and minimal field investigation is required to respond adequately to those comments, and to complete a design and permit package for the project to move forward. Following completion of the design plans and narrative, the permit application and plans will be submitted for approval as part of the larger bridge

replacement/road realignment permit application package. Once approval is received, URS will assist the Village in procuring a qualified contractor to complete the dam removal and stream restoration, and will provide qualified, full-time oversight of the project. URS will also assist in intergovernmental coordination and stakeholder relations needs associated with the project.

URS will rely upon its extensive familiarity with the project, as well as its technical expertise and experience with similar dam removal/ stream restoration projects, to provide the Village with timely, efficient and cost- effective services. Wherever possible, URS will utilize existing information in the interest of controlling costs. URS is prepared to promptly implement the following technical approach to achieve dam removal and stream restoration objectives upon authorization by Village of Dexter.

#### 2.0 TECHNICAL APPROACH

The following sections discuss, in detail, the technical approach proposed by URS to successfully complete the project.

#### Task 1. Conceptual Design Engineering

In order to keep the project moving along its critical path, URS has already completed some of the final design and permitting components. including submittal of a preliminary design to MDEQ for comment; several meetings with MDEQ; and responses to comments received. In addition, URS prepared cost estimates to assist with project planning. Costs associated with these activities are identified in the project cost estimate presented in this proposal.

#### Task 2. Field Data Collection

This task will involve an examination of Mill Creek upstream of the dam beyond the influence of the dam impoundment. Typically, regional curve data is used to assist in stream restoration and the proper sizing of stream channels, when a more natural channel design is being proposed. Due to the lack of current information pertaining to regional curve data for the Mill Creek watershed, URS proposes at least three cross section surveys on stable reaches of stream with consistent stream features (i.e. bankfull features, channel width, depth and cross sectional area). At each of these locations, a channel cross section survey will be completed to define channel size and shape. A limited channel profile will also be surveyed to determine channel slope at each cross section location. This information will then be entered into stream restoration software to determine consistency in channel size as related to drainage area. The drainage area for each cross section will be determined, and the survey information will be plotted on

regional curve tables. These steps are needed to obtain watershed specific information related to channel morphology.

The field survey will also include a more detailed examination of the dam and impoundment to examine site conditions related to access to the dam and also the development of a detailed breaching/dewatering plan. During this task, a pre-application meeting will be held with the permitting agencies to discuss information related to the preparation of permitting and erosion and sediment control plan requirements. This meeting should also include appropriate MDOT representatives.

#### Task 3. Engineering Design

The field survey data will be processed to develop a site-specific regional curve. Upon completion of the necessary design calculations, URS will prepare separate design sheets and permit applications for each dam consisting of a cover sheet, a plan sheet including a narrative of the breaching process, a longitudinal profile, cross sections, a details sheet, and an erosion and sedimentation control plan. The plans will include the necessary dimensions for the breach, channel dimensions and erosion protection, staging areas, and areas for spoils. In addition, URS will provide sufficient detail to address temporary channeling of water during the construction effort, excavation of impounded sediment, placement of impounded sediment including clay capping where required, final grading, and riparian restoration along the restored stream corridor.

Finally, a hydraulic analysis of the proposed channel using HEC-RAS software will be completed to ensure that the restored stream channel will adequately convey storm flows, and will not adversely affect the proposed replacement bridge. The analysis will also include any in-stream rock structures proposed in the design. Following the completion of the design, a detailed design report will be prepared and submitted with the permit application.

#### Task 4. Permitting

URS will complete all required permitting applications to MDEQ and appropriate county and federal agencies. This will include technical input into, and coordination with the combined bridge replacement/ road realignment/ dam removal permit application to the state of Michigan.

#### Task 5. Specifications and Bidding Assistance

URS will provide all necessary technical specifications on the drawings, and submit them to MDEQ with the permit application so that a separate specifications document is not required. URS will also provide a brief separate narrative report to support the drawings. URS will provide assistance to the Village to advertise, bid and review bids for a qualified contractor to work under contract to the Village to complete the project.

#### Task 6. Construction and Construction Oversight

Once the contractor is selected and the contract signed, URS will conduct an on-site preconstruction meeting with MDEQ and the contractor at least seven days prior to initiation of construction activities.

URS will provide construction observation for the project (up to 20 full days) in order to verify construction, document time and materials, provide reviews of contractor's invoices, and provide post-dam removal drawings to MDEQ. URS will conduct a final site walkover following completion of the project to document that all critical design features have been properly and adequately constructed. URS will note deficiencies and work with the contractor to remedy identified deficiencies. URS will also review the contractor's invoice(s) for accuracy.

Finally, URS will prepare the project certification and final report once the project has been completed. This will consist of markups made to the design drawings of any significant changes made during the project, with an explanation in the report, along with photo documentation. This task does not include physical survey, as this is not expected to be required.

URS will prepare multiple copies of the drawing(s) and report for submittal to the Village, MDEQ, County, and other parties, as appropriate.

#### Task 7. Intergovernmental Coordination and Stakeholder Relations

URS will assist the Village in intergovernmental coordination and stakeholder relations, including presentations to Village Council, meetings with other governmental entities, the development of materials for public outreach, and the conduct of meetings/ workshops for public information/ education purposes.

#### Task 8. Project Administration and Meetings

The URS project manager will provide necessary project administration to maintain project budgets, schedule, complete timely invoicing, and maintain open and continuous

communication with the Village and other interested parties. URS will participate in meetings at the project site or at local offices, as needed. URS will also participate, as requested, in any meetings with other units of government that may be useful in advancing project goals.

#### Scope of Work Assumptions

In developing our proposal and associated cost estimate, URS based the scope of work and level of effort on review of available information and discussion with stakeholders. Our proposal is based upon the following assumptions:

- The estimated cost of dam removal (\$40,000) will be covered through an existing contract with the Washtenaw County Road Commission. That figure is included in the construction estimate presented below.
- Deliverables include multiple sets of design drawings and narrative reports for each project task, as appropriate.
- The cost estimate does not include costs associated with preparation of a clientspecific or AIA (or similar) specification package, or contract conditions, should the construction work be publicly bid.
- The HEC-RAS analysis requested by MDEQ can be completed using existing survey data; and
- No permit application fees are expected and, therefore, are not included in the cost estimate.

#### 3.0 COMPENSATION AND PAYMENT TERMS

The total value of this proposed project is estimated not to exceed \$365,264. This includes a comprehensive suite of URS professional services described above (\$90,264) on a time and materials basis; with the balance (\$275,000 covering all costs associated with project construction. (URS proposes that the Village engage the construction contractor directly in the interest of saving the Village markup fees. Should the Village desire to have URS perform this function, however, an addendum to this proposal can be prepared.)

This cost estimate represents our best estimate of the required level of effort to meet project objectives. Should the scope of work change by virtue of MDEQ permit requirements, changes made by others, field conditions or other considerations, we will notify and provide the Village of Dexter with revised cost figures for approval prior to conducting the additional work.

Estimated costs (project labor and other direct costs) for the eight proposed project tasks are as follows:

- Task One: Conceptual Design- \$17,804
  Task Two: Field Data Collection- \$4,229
  Task Three: Engineering Design- \$17,973
- Task Four: Permitting- \$6,947
- Task Five: Specifications and Bidding- \$4,509
- Task Six: Construction and Construction Oversight- \$297,755
- Task Seven: Intergovernmental Coordination and Stakeholder Relations- \$10,347
- Task Eight: Administration- \$5,700

A cost estimate spreadsheet will be prepared to provide additional detail on both URS professional services and construction costs.

#### Client's Responsibilities

This Proposal is made with the understanding that the Village of Dexter will perform the following items:

- 1. Designate a person to act as the client's representative.
- 2. Secure written access to the project area to allow URS to enter the subject properties as needed for the duration of the project.

#### Cost Provisions

The costs included in this proposal are valid for 90 days from the date of submittal. If the proposal is accepted after said period, URS reserves the right to review and retain or modify the figures stated herein in order to appropriately reflect changing costs and salaries and similar economic considerations.

#### Additional Services

URS shall provide Additional Services not otherwise included in this Proposal or not customarily furnished in accordance with services of the scope described herein, if authorized by Village of Dexter in writing, and such shall be paid for by Village of Dexter.

#### 4.0 SCHEDULE

URS is prepared to begin work within two weeks of notice to proceed, weather and access permitting. We anticipate scheduling and completing the fieldwork within two weeks. We will notify Village of Dexter in the event the proposed schedule changes. Preparation of the design documents for review by the Village of Dexter, regulators and other stakeholders will be completed within five weeks of completion of field work, assuming that there are no significant weather delays or other delays beyond the control of URS.

#### **AUTHORIZATION**

To authorize URS to proceed, a work order will be prepared for signature. URS Image of Dexter with this project. Should you have any proposal, please contact Mike Donahue at 248.994.7431.

Sincerely, appreciates the opportunity to submit this Proposal and looks forward to assisting the Village of Dexter with this project. Should you have any questions relating to this

Re:

Mill Creek Building Special Land Use Approval

Date:

June 25, 2007

#### PLANNING COMMISSION DECISION

On June 4, 2007 the Planning Commission held a public hearing on the Special Land Use request for the Mill Creek Building. Pursuant to Article 15(A).02.H, buildings over 20,000 square feet require special land use approval. The Planning Commission recommended approval of the special land use request with the following DRAFT motion:

Move Carson, Support Clugston for the Planning Commission to recommend approval of the Special Land Use Permit for the Mill Creek Building, a building over 20,000 square feet in the CBD District, parcel numbers: 08-06-210-007 and 08-06-210-006.

Attached is the Planning Consultants review of the proposal.

#### **SUGGESTED MOTIONS**

Thank you,

Based on the information provided by the applicant, as recommended by the Planning Commission and pursuant to Section 8.03, Special Land Use review standards, the Village Council (APPROVES / DENIES) the Special Land Use request submitted by Schulz Development for the Mill Creek Building, a proposed building over 20,000 square feet in the Central Business District, parcel ID's HD-08-06-210-007 and HD-08-06-210-006.

The Speci	al Land Use permit is granted with the following conditions:
1.	Execution of a purchase agreement for parcel HD-08-06-210-006.
2.	Approval of a site plan.
3.	
4.	
_	postpone the action on the Mill Creek Building special land use request until te), to allow the applicant time to address the following items:
1.	
2.	
3.	
Please cor	ntact me prior to the meeting with questions.

Date:

June 1, 2007

# Special Land Use Review For Village of Dexter, Michigan

Applicant:

Schulz Development

**Project Name:** 

Mill Creek Building

Location:

Corner of Forest and Jeffords Street

Zoning:

CBD, Central Business District – The gross floor area of the proposed building is over 20,000 square feet therefore a special

land use is required.

**Action Requested:** 

Special Land Use Approval.

#### PROJECT AND SITE DESCRIPTION

The applicant proposes to remove an existing structure at the corner of Forest and Jeffords Streets and construct a three (3) story building over 20,000 square feet for commercial purposes. The existing public parking area along Jeffords Street will be redesigned. Parking is also proposed adjacent to the proposed building and along Forest and Jeffords Streets and the alley to the north. The existing building on site is boarded-up and dilapidated, and the grounds are overgrown.

According to Section 15(A).02 H., any building with a gross floor area in excess of 20,000 square feet is required to obtain a special land use permit. The special land use must be approved by the Planning Commission and the Village Council in accordance with the general standards for all special land uses listed in Section 8.03.

This report will review the proposed special use with respect to the general review standards listed in Section 8.03 of the Zoning Ordinance.

Mill Creek Building June 1, 2007

#### SPECIAL USE CONSIDERATIONS

The Zoning Ordinance requires that the Planning Commission and Village Council consider the following standards for the use at the proposed location:

A. The Special Land Use will be consistent with the goals, objective and future land use plan described in the Dexter Master Plan.

The subject site is identified on the Village Master Plan as the Central Business District (CBD). The CBD incorporates a mix of uses within the core of the Village and encourages more dense development due to small lot sizes. Desirable land uses include ground floor retail, personal service establishments, municipal facilities, and offices. We find that the proposed special land use for this site is consistent with the Master Plan's goals and objectives.

B. The Special Land Use will be consistent with the stated intent of the zoning district.

The subject site is zoned CBD, Central Business District. The intent of the CBD zoning district in part, is to foster continued improvements and redevelopment that is physically compact and appealing to the pedestrian environment. The existing building is boarded-up and dilapidated, and the grounds are overgrown. Removal of the existing building and subsequent replacement with a new building is a positive development for the Village and consistent with the intent of the CBD zoning district.

C. The Special Land Use will be designed, constructed, operated and maintained to be compatible with, and not significantly alter, the existing or intended character of the general vicinity in consideration of environmental impacts, views, aesthetics, noise, vibration, glare, air quality, drainage, traffic, property values or similar impacts.

The proposed building (and associated site improvements) should improve the visual appeal of this area. In general, approval of the special land use should improve the overall character of the downtown.

D. The Special Land Use will not significantly impact the natural environment.

The special land use should not impact the natural environment.

E. The Special Land Use can be served adequately by public facilities and services such as police and fire protection, schools, drainage structures, water and sewage facilities, and refuse disposal.

The proposed building will be served by existing municipal services. During plan review, the Village Engineer should comment on whether the proposed uses for the building will result in additional impacts to municipal water and sewer.

F. The proposed use shall be of a nature that will make vehicular and pedestrian traffic no more hazardous than is normal for the district involved.

Mill Creek Building June 1, 2007

Although specific uses for the proposed building have not been identified, we do not anticipate more hazardous conditions for vehicular and pedestrian traffic. In fact, redesign of the general area, which includes the layout of parking and improvements to Jeffords and Forest Streets, should improve safety for vehicular and pedestrian traffic.

G. The proposed use shall be such that the location and height of buildings or structures, and the location, nature and height of walls, fences, and landscaping will not interfere with or discourage the appropriate development and use of adjacent land and buildings or unreasonably affect their value.

The design of the building and overall site design fits well into the overall scheme of downtown Dexter. Improvement of this site should actually improve the potential for redevelopment of adjacent properties that are more consistent with the character of downtown. Therefore, we believe the requested special land use will not interfere with the appropriate development and use of adjacent land or unreasonably affect their value.

H. The proposed use shall be designed, located, planned, and operated to protect the public health, safety, and welfare.

The proposed improvements and future uses should not negatively affect the public health, safety, and welfare of Village residents.

#### CONCLUSION

Based on our analysis, we recommend approval of the Special Land Use.

WORTMAN ASSOC., INC.

Re:

Dexter Ann Arbor Road Corridor - Article 15B, Village of Dexter Zoning Ordinance

Date:

June 25, 2007

Attached is an email from Trustee Semifero dated June 18, 2007. The request has been made for Council to review and discuss Article 15B, Dexter Ann Arbor Corridor Standards, of the Zoning Ordinance.

It is recommended that if Council would like further review of Article 15B that the request be taken to the Planning Commission for review and a recommendation. Upon presenting the information to the Planning Commission staff will outline the discussion items presented by Council. Any proposed ordinance amendments would then be posted and a public hearing held.

Please contact me prior to the meeting with questions. Thank you,

#### **Donna Dettling**

Subject: Item for Council Meeting Agenda 25-JUN-2007 - Rewrite of AA Rd Corr Access Management

Jim, Donna,

I am submitting the following for the 25-Jun-2007 Council meeting agenda. I tried to take a stab at it myself but the article is pretty convoluted and needs a lot of work if the types of changes I am proposing are to happen. I am not sure I would do an adequate job so I am asking if staff can lead an effort to rewrite. Before any effort at all is expended I would like to discuss with Council. I can try to participate in any rewrite attempt although I will be out of town 26-Jun to 28-Jun.

Consideration: Direct the Village Manager to determine revised ordinance wording (in Article 15(B), specifically 15(B).05 - Access Management, and other articles as necessary) to eliminate amd / or more strictly prohibit provisions for direct access to Ann Arbor Road in the Ann Arbor Road Corridor. Completion should be in time for consideration by Council to send to Planning Commission no later than the July 23 Council meeting. Provisions to address:

- 1) Consider allowing direct access only as temporary access points with requirement that such access points must be removed in the future when additional development is completed and indirect access is established.
  2) Eliminate flexibility where it is not completely necessary and make the requirement more explicit than it already is. Make wording more strict more "shall", less "may", including showing cause for proposed direct access in C4, prohibiting direct access if shared access is available in any way, strengthen wording of section H. and J., and changing all wording to show plans for direct access are temporary.
- 3) Consider requiring approval by Council in addition to Planning Commission as a secondary check on direct access.
- 4) Answer the following and submit proposed wording: Can access easements be required as a condition of site plan approval to ensure access is granted from adjacent land owners? This would be to ensure access is available in early developments for later developments and to eliminate any temporary access points granted once later developments are implemented.
- 5) Add provision to deem current access points as "non-conforming" access points which must be removed when developed, redeveloped, or improved. Include unused drives (MAV) and single family homes (south side of AA Rd) to drive elimination of driveways as the area is redeveloped or improved.
- 6) Include in the intent of the article the discussions and comments from the public who developed the AA Rd Corridor plan indicating limiting direct access was a strong desire of the group.

Thanks,

Joe

#### Memorandum

Re:

Article 22, Administration and Enforcement, Village of Dexter Zoning Ordinance

Date:

June 25, 2007

Attached is an email from Trustee Semifero dated June 11, 2007. The request has been made for Council to review and discuss Article 22, Administration and Enforcement, of the Zoning Ordinance. Specifically Council is being asked to address extensions of Zoning Compliance applications. Proposed language is attached, however it is recommended that the language be changed slightly. The minor change is shown with a double strikethrough.

It is also recommended that extension provisions be added to Article 21, Site Plan Review and Approval. Extension provisions are typically part of site plan ordinances and are part of Article 19, PUD Regulations. Specific language for Article 21 is not proposed at this time, but will be presented to the Planning Commission upon further review and research.

It is recommended that if Council would like the Planning Commission to consider the proposed amendments that a motion be made directing such (Amendments to Article 21 and 22). Upon presenting the information to the Planning Commission staff will outline the discussion items presented by Council. Any proposed ordinance amendments would then be posted and a public hearing held.

Please contact me prior to the meeting with questions. Thank you,

Section 22.03, Certificate of Zoning Compliance,

G. An application for a certificate of zoning compliance shall be deemed to have been abandoned six (6) months after the date of filing unless such application has been diligently prosecuted or a building permit shall have been issued, or a certificate of occupancy shall have been issued for a use not requiring a building permit. The Zoning Administrator may, for reasonable cause, grant one or more extensions of time for an additional periods not exceeding ninety (90) one hundred and eighty (180) days each. Additional extensions of time may be granted by the Village Council. Any certificate issued shall become invalid if the authorized work is suspended or abandoned for a period of six (6) months after time of commencing the work.

Re:

Article 4, Nonconformities, Village of Dexter Zoning Ordinance

Date:

June 25, 2007

Attached is an email from Trustee Semifero dated June 11, 2007. The request has been made for Council to review and discuss Article 4, Nonconformities, of the Zoning Ordinance. Specifically Council is being asked to address a new section for nonconforming buildings. As proposed the language resembles nonconforming signs and addresses the continuation of legal nonconforming buildings. Proposed language is attached, however it is recommended that staff work with the Planning Consultant to review the language and provide a recommendation on the legalities of what can and cannot be required of nonconforming structures.

Following the Planning Consultant review the information could be presented to the Village Council and Planning Commission for further discussion and consideration.

Please contact me prior to the meeting with questions. Thank you,

#### Section 4.xx NON-CONFORMING EXISTING BUILDINGS.

### (1) INTENT

It is the intent of this section to encourage eventual elimination of buildings that, as a result of the adoption of this Article, become non-conforming, and to administer this Article to realize the removal of illegal non-conforming buildings and to avoid any unreasonable invasion of established private property rights, therefore; No person shall be required to remove a building which was erected in compliance with previous regulations of this Article if said building becomes non-conforming due to a change occurring after the original adoption of this article, or in the location of buildings, streets or property lines, which change, is beyond the control of the owner of the building and the premises on which it is located.

# (2) LAWFUL EXISTING BUILDINGS

Any building lawfully existing at the time of adoption of this Article which does not fully comply with all provisions shall be considered a non-conforming building and may be permitted to remain as long as the building is properly maintained and not detrimental to the health, safety and welfare of the community except as hereafter provided.

#### (3) CONTINUANCE

Any lawful non-conforming building shall be permitted to continue to exist, so long as the non-conforming building:

- 1). is not physically expanded or changed.
- 2). is not relocated or structurally altered so as to prolong the life of the building, or so as to change the shape, size, type, placement, or design of the building. Altered shall not include normal maintenance or maintenance to protect public safety. Normal maintenance shall include repairs which keeps the property in good operating condition (such as repairing a roof) but does not materially add to the value of your property or substantially prolong its life (such as replacing a roof).
- 3). is not repaired or re-erected after being damaged, if the repair or re-erection of the building would cost more than fifty (50) percent of the replacement cost of an identical new building.
